

F0D00020 - Display for level sensors

Features

- 2.42" monochrome OLED display
- Automatic scrolling (4 screens)
- Compatible with the water height logger (LNU06V4) and radar level sensor (LNR06V4)
- Display powered by the logger internal battery
- Activation by the bottom push button
- Programmable via Avelour software
- Can be installed outdoors as it is rainproof (IP65)

Functioning principle

Principle of operation of the display

The data of the connected sensor are displayed by pressing the push button located under the display.

A M12 8Pts connector located under the housing allows also the connection of a rain gauge and/or to control a water sampler.

The display duration is configured using the Avelour software.

Features	PN : F0D00020
Power supply	1 Watt via the logger
Interface	RS485 RTU Master / Slave
Programming	Avelour software
Display	OLED 2,42" 128 x 64 pixel
Data visualisation	4 values scrolling on 4 screens
Housing	PPO, DIN 43700
Housing grade	IP65
Housing dimension	125 x 151 X 90 mm
Screen dimension	96 X 48 X 48 mm
Working temperature	-10...+60°C
Weight	650 g
